SUMMARY

Experienced software developer with a strong background in designing web applications and websites. Proficient in both front-end and back-end development, seeking opportunities to further grow and refine my skills in full-stack development while making a meaningful impact in the field of software development.

EXPERIENCE

Web Developer | MBDG church | Lancaster, PA | August 2020 – December 2023

- Voluntarily designed a comprehensive church website, utilizing Flask, SQL, HTML/CSS/JS
- Demonstrated full-stack development expertise, ensuring a user-friendly church website.
- Responsible for the ongoing maintenance of the site, ensuring it stays current with the latest information and features.

Software Developer Intern | Gateway Ticketing System | Gilbertsville, PA | May 2023 - August 2023

- Collaborated on developing a C#.NET Core console app, successfully migrating over 10,000 local files to Azure cloud storage.
- Handled database operations, cataloged, uploaded, and retrieved files in Azure, with file deletion for space optimization.
- Send file information to team channels and implemented email notifications for users.

SKILLS

Frontend:	Backend:	Database:	Tooling:
• HTML • CSS, Bootstrap • JavaScript • React, Flutter	• Python: Flask, Django • C# .NET, ASP.NET MVC, Rest API, OOP • PHP, C, C++, Java • Node.js, Express	• Mongo DB • SQL, Postgres • Firebase • Azure	• Git • GitHub • bash • Heroku

EDUCATION

Bachelor of Science in Computer science | 3.5 | Millersville University | Millersville, PA | 2023

Associate degree in software engineering | 3.8 | Thaddeus Stevens College of Technology | Lancaster, PA | 2021

CERTIFICATES

.Net Full Stack Foundation (Coursera, November 2023)

Frontend Development using React (Coursera, November 2023)

Backend Development for .Net Full Stack (Coursera, December 2023)

PROJECTS

Personal Website | Millersville University | atmelaku-13fea32952f5.herokuapp.com/about/ | April 2023 - September 2023

- Created a personal website using Django, SQL, JavaScript, and HTML/CSS
- Implemented a secure login system and dynamic blog post management, enhancing user experience and site functionality.
- Established a comprehensive digital presence with additional pages, highlighting the ability to craft engaging online platforms.

Online bookstore | Millersville University | github.com/atmelaku/onlineBookStore | October 2022- December 2022

- Developed a school project: an e-commerce website for books using JavaScript, MongoDB, Node.js, and Express.js.
- Implemented search, shopping cart, and checkout features, providing a user-friendly shopping experience.
- Demonstrated proficiency in full-stack development, database management, and user interface design.

Social media platform | Thaddeus Stevens College | github.com/BillSpyro/MediaCenter | March 2021 - May 2021

- Collaborated to build a social platform (HTML, CSS, PHP, SQL) with user registration and login, profiles, and friend requests
- Designed interactive features likes, comments, nested comments. Enhanced user engagement in multimedia content sharing.
- Demonstrated teamwork in creating an efficient, user-friendly social media platform using version control git and GitHub.
